HATHITRUST

DIFFERENTIAL EQUATIONS
Volume 12, Numbers 1-12, 1976
(A translation of Differentsial'nye Uravneniya)

Volume 12, Number 1 January, 1976

	Engl.	Russ.
PARTIAL DIFFERENTIAL EQUATIONS		
Some Boundary-Value Problems for a Class of Singular Partial Differential Equations – S. A. Aldashev	1	3
An Inverse Problem for Linear Symmetric t-Hyperbolic Systems with n + 1 Independent Variables – S. P. Belinskii	10	15
A Mixed Problem for a Class of Second-Order Hyperbolic-Parabolic Equations – V. N. Vragov	16	24
Remarks Concerning Some Transformations of Chaplygin Equation Systems – G. A. Dombrovskii	21	32
Boundary-Value Problems for Humbert's Equation – Z. D. Dublya	24	36
An Analog of Poisson's Formula – V. I. Evsin	28	41
Cauchy-Type Problems and Problems with Translations for a Degenerate Hyperbolic Equation – V. A. Eleev	32	46
Analyticity of Solutions of Nonlinear Transmission Problems – V. M. Isakov	41	59
A Priori Estimates of Generalized Solutions of Quasilinear Degenerate Elliptic Equations – A. I. Kozhanov	48	69
A Boundary-Value Problem for the Equation $\operatorname{sign} y \lvert y \rvert^m u_{xx} + u_{yy} = 0$ with Displacement – S. K. Kumykova	55	79
A Priori Estimates for Tricomi and Dirichlet Problems for an Equation with Degenerate Type and Order – N. N. Lanin	62	89
Smoothness of a Solution of a Boundary-Value Problem for an Equation of Mixed Type with Two Parallel Degeneracy Lines – T. I. Lanina	67	97
Darboux's Problem for a Loaded Second-Order Integrodifferential Equation – A. M. Nakhushev	71	103
Inverse Potential Problem for a Simple Layer – G. A. Pavlov	75	109
Related Operators and Boundary-Value Problems for Elliptic Equations – V. I. Pashkovskii	81	118
Integral Representation of the Resolvent of a Self-Adjoint Elliptic Operator – V. D. Stepanov	89	129
Dirichlet's Problem for an Equation of Mixed Type – M. M. Khachev	95	137
Determination of the Density of a Body from Its Potential – V. G. Cherednichenko	100	144
Potentials for Higher-Order Elliptic Equations and Inverse Problems – B.-W. Schulze	103	148
Global Methods of Investigating Oblique-Derivative Problems for Elliptic Equations – A. I. Yanushauskas	111	159
BRIEF COMMUNICATIONS		
Inverse Problem of Determining a Region in the Case of the Transfer Equation – D. S. Anikonov	121	172
Determination of the Coefficient of the Lowest-Order Term in a General Parabolic Equation – N. Ya. Beznoshchenko	123	175
A Boundary-Value Problem for a Loaded Heat-Conduction Equation – Kh. Zh. Dikinov, A. A. Kerefov, and A. M. Nakhushev	125	177
Composition of Singular Integrals – P. T. Dybov	127	180

Engl./Russ.

Volume 12, Number 2 February, 1976

ORDINARY DIFFERENTIAL EQUATIONS

Quasilinearization Method of Approximate Solution of Boundary-Value Problems for Ordinary Differential Equations – I. I. Bezvershenko 131 195

Limit Cycles of a Differential Equation – G. M. Buldyk 134 200

Dynamic Systems with Invariant Lebesgue Measure on Closed, Connected, Oriented Surfaces – N. I. Gavrilov 139 206

Escape of One Nonlinear Object from Several Less Mobile Pursuing Objects – P. B. Gusyatnikov 144 213

Resolvents and Fractional Powers of Ordinary Differential Operators on Spaces of Smooth Functions – I. D. Evzerov and P. E. Sobolevskii 155 227

A Theorem Concerning Critical Cases of Difference-Equation Systems – N. I. Kazeeva and S. N. Shimanov 160 234

A Complete Qualitative Investigation of Duffing's Equation – A. D. Morozov 164 241

Symbolic Dynamics as Based on Homoclinic Structures – Yu. I. Neimark 175 256

Discrimination Problem for a Normal Region N_4 in R^3 – S. K. Norkin. 180 263

High-Order Singularly Degenerate Differential Operators with Unbounded Operator-Valued Coefficients – V. P. Orlov. 187 272

Algebraic Invariants of Multidimensional Differential Systems – K. S. Sibirskii and V. D. Taku 193 281

Conditions for a Liénard Equation to Have a Center – L. A. Cherkas 201 292

A Singular Nonlinear Boundary-Value Problem for a Second-Order Equation with a Rapidly Increasing Second Member – G. V. Shcherbina 206 299

PARTIAL DIFFERENTIAL EQUATIONS

A Mixed Problem for a Hyperbolic System in Space – A. I. Vagabov. 211 305

Characteristic Problems for an Equation Whose Principal Part Contains Mixed Derivatives – A. A. Iosif'yan. 214 309

Asymptotic Properties, with Respect to the Time, of Solutions of a Strongly Parabolic System – Ya. I. Kanel' 225 325

Cauchy's Problem for Certain Even-Order Abstract Hyperbolic Equations – Ya. V. Radyno and N. I. Yurchuk 229 331

Normal Solvability of Dirichlet's Problem for a Degenerate Elliptic System – R. M. Sharipova 238 343

BRIEF COMMUNICATIONS

A Geometrical Method of Solving Systems of Differential Equations – S. P. Blinov 242 348

Asymptotic Properties of Solutions of a System of Nonlinear Differential Equations in the Neighborhood of a Singularity – A. E. Zernov. 245 352

Trajectory Stability – V. I. Zubov 247 354

Eigenvalues of a Periodic Boundary-Value Problem for Certain Partial Differential Equations – B. S. Mokeichev 248 356

Possibility of Approximating Regular Systems of Linear Differential Equations – G. N. Petrovskii 251 359

Solvability of Differential-Operational Equations of Arbitrary Order – V. G. Raskin . . 253 362

Approximate Representation of Relaxation Oscillations – G. V. Sugrobov 256 365

A Method of Solving Abel's Equation and Riccati's Equation – F. G. Tempel' 259 369

A Priori Estimates and Nonlocal Existence Theorems for Solutions of Quasilinear Parabolic Equations in L_p Spaces – A. I. Yasakov. 261 372

CHRONICLE

Fourth All-Union Conference on the Theory and Application of Differential Equations with Deviating Arguments – Yu. A. Mitropol'skii and E. Yu. Romanenko 264 375

Volume 12, Number 3 March, 1976

REVIEW ARTICLE

Theory of Nonstationary Singularities of Second-Order Equations. I — N. P. Erugin 267 387

ORDINARY DIFFERENTIAL EQUATIONS

A Class of Functional-Differential Equations — N. V. Azbelev and G. G. Islamov 290 417

Asymptotic Properties of the Spectrum of a Sturm — Liouville Operator in the Case of a Limit Circle — A. G. Alenitsyn 298 428

Dynamic Systems with Invariant Lebesgue Measure on the Surface of a Torus — N. I. Gavrilov 305 438

l-Escape in Linear Differential Games — P. B. Gusyatnikov 311 446

Theory of Inhomogeneous Linear Systems of Differential Equations with Constant Coefficients — I. N. Zboichik 319 456

Approximate Solution of a Boundary-Value Problem — A. P. Makhmudov 323 461

Estimate of the Jump in the Highest Exponent of a Linear System Due to Exponential Perturbations — R. A. Prokhorova 333 475

Controllability in Many-Valued Processes — Fam Kyu Shak 339 484

PARTIAL DIFFERENTIAL EQUATIONS

Mixed Problem for Certain Parabolic-Hyperbolic Equations — B. A. Bubnov 347 494

Some Inverse Problems for Degenerate Hyperbolic Equations — T. Eldesbaev 353 502

Existence of a Generalized Solution of Tricomi's Problem. I — L. I. Kovalenko 359 511

Integral Estimates of Fractional Derivatives of Solutions of Linear Elliptic Equations in L_2. II — V. A. Krasnov and A. S. Fokht 372 529

Difference Approximation for Poisson's Equation — I. V. Fryazinov 379 540

BRIEF COMMUNICATIONS

Question of when a Classical Solution of Dirichlet's Problem for an Elliptic Equation in an Arbitrary Unbounded Region is in the Class W_2^1 — V. M. Govorov 386 549

Investigation of Solutions of Cauchy's Problem for Semiexplicit Differential Equations with Time Lag — I. A. Goma 388 552

Boundary-Value Problems on Finite and Infinite Intervals — V. V. Gudkov 390 555

Solvability of a Boundary-Value Problem for a Class of Nonlinear Ordinary Differential Equations — A. G. Zarubin and M. F. Tiunchik 393 558

Nonuniqueness of Solutions of a First-Order Differential Equation — A. I. Panasyuk 396 561

A Boundary-Value Problem for Differential Equations with Deviating Arguments — Z. B. Seidov 397 562

SOVIET SCIENTISTS

Peter Ivanovich Kuznetsov (On the Fortieth Year of His Career) — L. N. Bol'shev, V. A. Il'in, N. N. Krasovskii, Yu. V. Prokhorov, B. S. Sot-skov, and A. N. Tikhonov 401 567

Volume 12, Number 4 April, 1976

REVIEW

Theory of Singularities of Second-Order Equations. II — N. P. Erugin 405 579

ORDINARY DIFFERENTIAL EQUATIONS

Optimal Controls in Problems Concerning Coefficients of Schlicht Functions — I. A. Aleksandrov, G. G. Zavozin, and S. A. Kopanev 421 599

The Problem of Control with Incomplete Data — T. F. Anan'ina 431 612

Zeros of Oscillating Solutions of the Equation $(p(t)x')' + f(t, x, x') = 0$ — M. Bartushek 438 621

Optimal Processes in the Case of Weakly Differentiable Relations. I — G. M. Begalishvili 442 626

	Engl.	Russ.
Singular Solutions in Maximin Optimization Problems for Dynamic Systems with Quadratic Quality Criteria – S. T. Zavalishchin	449	637
Existence and Uniqueness of Solutions of Ordinary Differential Equations – S. G. Kondratenya	455	645
A Criterion for a Linear System to Be ε-Controllable – S. A. Nefedov and F. A. Sholokhovich	460	653
Convergence of an Iterative Method of Obtaining Solutions of Systems in Standard Form – Yu. A. Ryabov and D. K. Lika	463	658
PARTIAL DIFFERENTIAL EQUATIONS		
A Mathematical Investigation of the Problem of a Longitudinal Impact on a Relaxing Rod – S. I. Gaiduk	472	668
Ramification of Solutions of Mixed Problems for Almost Linear Hyperbolic Systems in the Plane – V. N. Gol'dberg	483	686
Existence of a Generalized Solution of Tricomi's Problem. II – L. I. Kovalenko	493	700
A Regional Structural Method – V. L. Rvachev and A. P. Slesarenko	506	720
A Priori Estimates of Solutions of Boundary-Value Problems for Certain Differential-Operational Equations – N. I. Yurchuk	512	729
BRIEF COMMUNICATIONS		
Solutions of Painlevé's Fifth Problem – V. I. Gromak	519	740
Asymptotic Properties of the Renewal Equation – V. A. Derbenev	521	743
A Criterion for a Difference Equation to Be Nonoscillatory – V. Ya. Derr	524	747
Necessary and Sufficient Conditions for Solutions of a Second-Order Linear Equation to Be Nonoscillating – I. V. Kamenev	527	751
Conditions for a Differential-Equation System to Be Monocyclic – I. A. Konovalov	530	754
A Variant of Picone's Identity and Sturm's Theorem for High-Order Ordinary Differential Equations – L. M. Kuks	533	758
A Class of Linear Integral Operators – A. A. Kuleshov	534	760
Tricomi's Problem for a Second-Order Linear Equation of Mixed Type – Kh. M. Nadzhafov	537	763
Stability with Respect to a First Approximation – R. A. Prokhorova	539	766

Volume 12, Number 5 May, 1976

	Engl.	Russ.
ORDINARY DIFFERENTIAL EQUATIONS		
Riemann's Problem. II – N. P. Erugin	543	779
Observability of Nonstationary Systems with Time-Lag – L. E. Zabello and V. V. Mulyarchik	558	800
Spectrum of Schrödinger's Equation with a Complex Pseudoperiodic Potential. I – L. B. Zelenko	563	806
Boundary-Value Problems for Equations with Formally Symmetric Differential-Difference Operators – A. G. Kamenskii	569	815
Bounded Solutions of First-Order Differential-Operational Equations – V. G. Limanskii	576	825
Absolute Asymptotic Stability of Linear Differential Equations in Banach Space with an Infinite Number of Time-Lags – V. E. Slyusarchuk	588	840
Maximum Deviation in a Differential Game – A. G. Chentsov	594	848
PARTIAL DIFFERENTIAL EQUATIONS		
Approximation of Solutions of a Problem for Hyperbolic Equations by V. K. Dzyadyk's Method – V. P. Burlachenko and N. I. Sidenko	601	857
Some Problems Related to the Theory of Longitudinal Impact on a Rod – S. I. Gaiduk	607	865
Hyperbolic Equations with Variable Operator-Valued Coefficients – Yu. L. Daletskii and E. A. Fadeeva	617	881
Finite-Difference Schemes for Degenerate Quasilinear Elliptic Equations – A. V. Lapin and Yu. B. Smirnov	626	892

	Engl.	Russ.
A Mixed Problem for a First-Order Hyperbolic System with a Small Parameter Multiplying the Derivatives – Z. O. Mel'nik and V. N. Tsymbal	633	902
INTEGRAL AND INTEGRODIFFERENTIAL EQUATIONS		
Hammerstein Inclusions – L. N. Lyapin	638	908
A System of Integral Equations in a Space of Generalized Functions – B. I. Rukhlin	644	916
BRIEF COMMUNICATIONS		
Conditions for the Existence and Uniqueness of a Limit Cycle of a Two-Dimensional Differential System – L. I. Zhilevich	648	922
Application and Convergence of Galerkin's Method for the Equations for Flexible Plates and Shells in the One-Dimensional Case – A. G. Zarubin	650	925
A Differential Equation Having Solutions with Nonstationary Algebraic Singularities – V. P. Pisarenok and A. I. Yablonskii	653	928
A Boundary-Value Problem with a Discontinuous Boundary Value – A. G. Ramm	656	931
Some Topological Properties of Inhomogeneous Linear Systems – M. I. Rakhimberdiev	658	934
Functionally Invariant Solutions and the Nonuniqueness of a Solution of Darboux's Problem for a Degenerate Hyperbolic Equation – M. M. Smirnov	661	937
Necessary Conditions for Control Optimization in Hybrid Systems – S. V. Strel'tsov	663	940
Number of Limit Cycles of an Autonomous Second-Order System – L. A. Cherkas	666	944
PEOPLE OF SOVIET SCIENCE		
Andrei Vasil'evich Bitsadze (On His Sixtieth Birthday) – N. P. Erugin, A. N. Tikhonov, and V. A. Il'in	669	947

Volume 12, Number 6 June, 1976

	Engl.	Russ.
ORDINARY DIFFERENTIAL EQUATIONS		
A Three-Point Boundary-Value Problem for an Ordinary Third-Order Nonlinear Differential Equation – S. A. Bespalova and Yu. A. Klokov	677	963
Properties of Sets of Solutions of Differential Inclusions – A. I. Bulgakov	683	971
Minimal Green's Matrix of a Many-Valued Differential Operator – G. I. Kabak and Yu. K. Lando	688	978
Integrals of Fractional Order and Singular Boundary-Value Problems – M. I. Klyuchantsev	692	983
A Limit Boundary-Value Problem Not Satisfying S. N. Bernstein's Condition, with Applications in the Theory of Capillary Phenomena – A. D. Myshkis and G. V. Shcherbina	698	991
Regularization of Controls in a Differential-Difference Encounter-Avoidance Game – Yu. S. Osipov and L. P. Alesenko	704	999
A Linear Optimal-Control Problem with Periodic Solutions – E. L. Tonkov	709	1007
An Adiabatic Invariant of a System of Linear Oscillators and Scattering Theory – M. V. Fedoryuk	713	1012
Periodic and Almost-Periodic Solutions of Singularly Perturbed Differential Equations of Neutral Type – V. I. Fodchuk and A. Kholmatov	719	1019
An Estimation of the Eigenvalue of a Periodic Problem with the Smallest Absolute Value – A. Ya. Khokhryakov	725	1028
PARTIAL DIFFERENTIAL EQUATIONS		
Spectra of Non-Self-Adjoint Second-Order Elliptic Systems – A. G. Brusentsev	735	1040
Difference Schemes for Quasielliptic Equations in Polar Coordinates – V. D. Glushenkov and A. D. Lyashko	743	1052
Weak Solutions of the System of Reactor-Kinetics Equations – Yu. A. Kuznetsov and S. F. Morozov	750	1061
Imbedding Theorems for a Class of Singular Differential Operators in a Half-Space – M. A. Leizin	758	1073

	Engl.	Russ.
Weighted Spaces of Functions Defined on a Half-Space – I. I. Matveeva	764	1084
A Generalized Dirichlet Problem for a Class of Elliptic Differential Operators Degenerate on the Boundary of a Region. Spectral Properties – N. V. Miroshin	775	1099
Dirichlet's Problem for Linear Quasielliptic Differential Operators with Unbounded Coefficients Multiplying the Lower-Order Derivatives – I. E. Mozolevskii	785	1112
BRIEF COMMUNICATIONS		
Integrals of Motion of Schrödinger Nonlinear Equations – V. N. Alekseenko	792	1121
Existence of a Positive-Definite First Integral – V. S. Ermolin	793	1123
Linear Integral Equations of the First Kind in Spaces of the Type $H_s(R^n)$ – A. A. Kuleshov	795	1125
Dependence of Solutions of Certain Variational Inequalities on Parameters – A. A. Pankov	798	1129
Properties of Cauchy's Matrix for a Functional-Differential Equation – V. A. Tyshkevich	800	1131
SOVIET SCIENTISTS		
Boris Pavlovich Demidovich (On His 70th Birthday) – N. P. Erugin, Yu. S. Bogdanov, and N. A. Izobov	803	1134

Volume 12, Number 7 July, 1976

ORDINARY DIFFERENTIAL EQUATIONS		
Periodic Solutions of Certain Second-Order Equations – V. V. Amel'kin and V. É. Zhavnerchik	809	1147
Domain of Definition of a Sturm–Liouville Operator – K. Kh. Boimatov	812	1151
Singular Solutions of Nonlinear Differential Equations. II – Ya. V. Bykov and N. I. Fomina	819	1161
Asymptotic Solutions of Certain Second-Order Inhomogeneous Linear Equations in Banach Space with a Small Parameter Multiplying the Highest-Order Derivative – L. A. Groza	829	1174
Oscillation Properties of Solutions of Nonlinear Differential Systems – D. V. Izyumova and D. D. Mirzov	838	1187
Representation of Solutions of Linear Functional-Differential Equations – G. G. Islamov	843	1194
Relatively Ideally Observable Systems – A. P. Marinich	850	1204
Necessary Conditions for Optimization for Some Classes of Discrete Equation Systems – L. I. Minchenko	856	1211
Formation of Equations of Systems of Programmed Motion in a Sliding Regime – R. G. Mukharlyamov	861	1219
Monotonic Differential Equations. II – A. I. Perov and Yu. V. Trubnikov	864	1223
Problem of Distinguishing a Center and a Focus for a System with a Nonvanishing Linear Part – A. P. Sadovskii	874	1238
A Comparison of Equivalences of Dynamic Systems in the Plane – O. M. Yudrups	880	1247
PARTIAL DIFFERENTIAL EQUATIONS		
Spectral Functions of Certain Singular Differential Operators. I – V. V. Katrakhov	887	1256
First Boundary-Value Problem for Degenerate Elliptic Equations in a Half-Space – I. I. Matveeva	895	1267
Construction of a Potential with a Quasiregular Kernel in Closed Form – M. L. Rasulov	906	1282
Solution of One-Dimensional Mixed Problems for a Parabolic System in a Region with a Variable Boundary – T. M. Rasulov	911	1290
BRIEF COMMUNICATIONS		
Averaging Method in Hilbert Space for Integrodifferential Equations – R. Anvarov	916	1297
A Note on the Number of Lyapunov Constants for Conditions for a Differential Equation to Have a Center – G. M. Buldyk	919	1301

Nonstationary Algebraic and Logarithmic-Algebraic Singularities of Systems of Second-Order Differential Equations – E. I. Danilova 921 1303
Properties of Trajectories of a Dynamic System in the Poincaré Circle – I. G. Kozhukh . . 924 1306
Reduction of a Controllability Problem to a Boundary-Value Problem – V. I. Korobov . . . 927 1310
Stabilization of Nonlinear Control Systems – A. M. Meilakhs 929 1313
A Method of Reducing a Special Boundary-Value Problem to Cauchy Problems – P. I. Monastyrnyi and A. I. Azarov. 932 1316
Regularity Classes for Second-Order Vector Equations – T. I. Smagina 935 1320
Optimization of Regularization Algorithms in the Solution of Incorrectly Posed Problems – V. P. Tanana and A. R. Danilin. 937 1323

SOVIET SCIENTISTS
Nikolai Evgrafovich Kochin (On the 75th Anniversary of His Birth) – N. P. Erugin. 940 1327
Medzhid Lyatifovich Rasulov (On His 60th Birthday) – N. P. Erugin, M. G. Gasymov, Ya. D. Mamedov, and Yu. A. Mamedov. 944 1332

Volume 12, Number 8 August, 1976

REVIEW ARTICLES
Theory of Global Properties of Ordinary Second-Order Linear Differential Equations – O. Boruvka. 949 1347

ORDINARY DIFFERENTIAL EQUATIONS
Necessary Conditions for Optimization in Minimax Problems – V. V. Al'sevich 976 1384
Some Cases of Local Generation of Limit Cycles in Three-Dimensional Space – A. R. Artykov, I. G. Rozet, and B. I. Toporovskaya 982 1392
Existence of Unique Solutions of Differential Equations with Time-Lag in Banach Space – Ya. I. Gol'tser and A. M. Zverkin. 990 1404
Conditional Stability of an Invariant Torus of a Dynamic System – A. V. Dvorak. 994 1410
Spectrum of Schrödinger's Equation with a Complex Pseudoperiodic Potential. II – L. B. Zelenko. 999 1417
Asymptotic Properties of Solutions of Systems of Linear Differential Equations in Expanding Regions – Ya. I. Zhitomirskii 1006 1427
Minimax Filtration in the Case of Quadratic Restrictions. I – A. B. Kurzhanskii and I. Ya. Pishchulina 1011 1434
Behavior of Solutions of a Differential-Equation System with Time-Lag close to an Integral Manifold – Z. P. Ordynskaya 1019 1447
Construction of Lyapunov Functions for Self-Regulating Systems – B. N. Skachkov 1024 1454
Conjugation of Systems of Ordinary Differential Equations – Ch'ang Dyk Wang 1030 1462

PARTIAL DIFFERENTIAL EQUATIONS
Difference Schemes for Parabolic Equations with Nonlinear Degeneracies. I – V. N. Abrashin. 1037 1470
Diffraction Problems with Noncylindrical Boundaries – L. A. Ivanov 1047 1485
Smoothness of Solutions of Certain Parabolic Equations. I – V. A. Kostin 1054 1495

BRIEF COMMUNICATIONS
Conditions for Escape in Linear Differential Games – A. Azamov and B. Rikhsiev 1064 1507
Representation of Solutions of a Second-Order Differential-Equation System in the Neighborhood of a Nonstationary Transcendental Singularity – E. I. Danilova. 1067 1510
Estimation of the Error in the Functional-Correction Averaging Method for Linear Equations – V. G. Ivanitskii. 1068 1512
Completeness of the System of Generalized Eigenfunctions of the Multigroup Diffusion Approximation for the Neutron-Transfer Equation – V. M. Novikov, A. I. Popykin, and S. B. Shikhov. 1072 1516
Damping of the Rotation of a Solid Body – A. M. Meilakhs and G. M. Khitrov. 1075 1520

Volume 12, Number 9 September, 1976

ORDINARY DIFFERENTIAL EQUATIONS

The Theory of Weil Limit-Circles in the Case of Non-Self-Adjoint Second-Order Differential-Equation Systems – E. S. Birger and G. A. Kalyabin 1077 1531

Linear Time-Optimal Problems with Mixed Restrictions – Yu. I. Brodskii 1085 1541

Limit Points of Solutions of Completely Integrable Autonomous Pfaffian Systems in the Neighborhood of a Stationary Point – É. I. Grudo and L. F. Yanchuk 1092 1552

Behavior of Integral Curves of a Dynamic System – R. M. Evdokimenko 1095 1557

Minimax Filtration in the Case of Quadratic Restrictions. II – A. B. Kurzhanskii and I. Ya. Pishchulina 1103 1568

A Transformation of an Asymptotic Expansion of a Period – N. P. Morozov 1111 1580

Criteria for the Stability of Systems with Transformed Arguments, Based on the Symmetrization of Matrices – V. P. Skripnik 1116 1587

Ordinary Linear Differential Equations with Singularities, in the Class of Analytic Functions – N. E. Tovmasyan 1122 1596

PARTIAL DIFFERENTIAL EQUATIONS

Spectral Functions of Some Singular Differential Operators. II – V. V. Katrakhov 1129 1605

Smoothness of Solutions of Certain Parabolic Equations. II – V. A. Kostin 1139 1619

Asymptotic Properties of Solutions of an Elliptic Equation with Discontinuous Boundary Conditions – V. Yu. Novokshenov 1143 1625

Cauchy's Problem for a Linear Differential Equation with a Parameter – T. M. Pushkareva 1152 1638

Boundary-Value Problems for Differential Equations with Operation-Valued Coefficients Depending on a Parameter – N. I. Yurchuk 1157 1645

INTEGRAL AND INTEGRODIFFERENTIAL EQUATIONS

A Runge–Kutta Method for the Solution of Two-Dimensional Nonlinear Volterra Integral Equations – B. A. Bel'tyukov and L. N. Kuznechikhina 1169 1662

Asymptotic Properties of Solutions of Equations with Aftereffect – Yu. A. Ved' 1174 1669

NUMERICAL METHODS

A Method of Finding Algorithms for the Approximate Solution of Linear Volterra Integral Equations – G. K. Lebed' and A. P. Torokhtii 1184 1683

A Method for the Approximate Solution of Cauchy's Problems for Differential Equations in Banach Space with Unbounded Variable Operators – A. E. Polichka and P. E. Sobolevskii 1191 1693

A Two-Sided Numerical Method of Solving the Boundary-Value Problem $y''' = f(t, y)$, $y(a_i) = c_i$ $(i = 1, 2, 3)$ – A. I. Teptin 1200 1705

BRIEF COMMUNICATIONS

Difference Schemes for Nonlinear Stefan Problems – N. G. Zhadaeva 1206 1712

Investigation of the Stability of Linear Periodic Differential Systems by the Method of the Variation of a Parameter – V. N. Laptinskii 1208 1715

Representation of Solutions of a Class of Third-Order Differential Equations – T. K. Shemyakina 1211 1719

Volume 12, Number 10 October, 1976

PEOPLE OF SOVIET SCIENCE

Andrei Nikolaevich Tikhonov (On His 70th Birthday) – A. V. Bitsadze, V. A. Il'in, A. A. Samarskii, and A. G. Sveshnikov 1215 1731

ORDINARY DIFFERENTIAL EQUATIONS

A Problem in Singular-Perturbation Theory – V. F. Butuzov and N. N. Nefedov 1219 1736

Singularly Perturbed Systems with an Indeterminacy in Their Degenerate Equations – A. B. Vasil'eva 1227 1748

	Engl.	Russ.
Asymptotic Expansion of Solutions of Nonlinear Problems with Singular Boundary Conditions – A. B. Vasil'eva and V. A. Anikeeva	1235	1758
A Method of Investigating Periodic Solutions of Systems of Difference and Differential-Difference Equations with Small Time-Lags – V. I. Rozhkov and M. A. Khekimova	1244	1770
PARTIAL DIFFERENTIAL EQUATIONS		
Solvability of Boundary-Value Problems for High-Order Parabolic Equations in Regions with Curved Lateral Boundaries – E. A. Baderko	1253	1781
A Singularly Perturbed Elliptic Equation with Two Small Parameters – V. F. Butuzov	1261	1793
Uniqueness of the V. A. Il'in Classical Solution of a Mixed Problem for a Hyperbolic Equation with Coefficients Depending on the Time – V. M. Govorov	1269	1804
Regularity of Boundary Points for Solutions of Quasilinear Elliptic Equations Degenerate on the Boundary of a Region – A. I. Ibragimov	1277	1815
Absolute and Uniform Convergence of Fourier Series in Eigenfunctions of an Operator in Elasticity Theory in a Closed Region. Justification of the Result Obtained by the Variable-Separation Method – M. Ismatov	1284	1824
The m-Tuple Completeness of the System of Generalized Eigenfunctions and Associated Functions of a Non-Self-adjoint Elliptic Operator – N. M. Krukovskii	1290	1832
The m-Tuple Completeness of Systems of Generalized Eigenfunctions and Associated Functions in W_2^1 of Boundary-Value Problems for Elliptic Equations and Systems – N. M. Krukovskii	1296	1842
Asymptotic Expansion of a Solution of a Second-Order Elliptic Equation with a Small Parameter Multiplying the Leading Derivatives – E. F. Lelikova	1303	1852
Unique Solvability of a Mixed Problem for a Hyperbolic Equation with a Complex Potential – I. S. Lomov	1313	1866
Dirichlet's Problem for a Second-Order Elliptic Equation – V. P. Mikhailov	1320	1877
Generalized Series of Fractional Order – V. S. Serov	1330	1892
FINITE-DIFFERENCE EQUATIONS		
A Method of Investigating Solutions of Oscillatory Difference Equations with Small Steps – A. B. Vasil'eva and A. A. Plotnikov	1338	1903
Accuracy of Variable-Direction Schemes for the Heat-Conduction Equation in an Arbitrary Region – A. V. Gulin and I. V. Fryazinov	1340	1906

Volume 12, Number 11 November, 1976

ORDINARY DIFFERENTIAL EQUATIONS		
Nonlinear Functional-Differential Equations – N. V. Azbelev	1347	1923
Asymptotic Properties of Bounded Solutions of Systems of Nonlinear Second-Order Differential Equations – M. M. Belova	1354	1933
Application of Methods from the Theory of Ordinary Differential Equations in the Study of Difference Equations Used in the Problem of Nonlinear Oscillations of a Circular Plate – Zh. N. Dmitrieva and N. F. Morozov	1358	1939
A Canonical Integral in the Neighborhood of a Focus – M. V. Dolov	1362	1946
Minimal Index of a Two-Dimensional Diagonal System – N. A. Izobov	1368	1954
Solution of a Boundary-Value Problem on a Half-Line by a Nonstationary Method – A. I. Kolosov and T. S. Kurchenko	1378	1967
Some Properties of Solutions of Nonlinear Differential Inequalities and Equations with Delay – R. G. Koplatadze	1381	1971
Conditions for the Maintenance of Asymptotic Stability in the Case of a Double Zero Root with a Nonsimple Elementary Divisor – G. S. Krechetov	1391	1985
Normal Forms of Completely Integrable Systems – N. N. Ladis	1397	1994
Properties of Solutions of Levinson's Equation – A. V. Osipov	1401	2000
Stability of Unperturbed Motion in the Critical Case of Two Zero Roots and a Pair of Purely Imaginary Roots – V. P. Prokop'ev	1408	2009

	Engl.	Russ.
Application of a Difference Method to Boundary-Value Problems for Abstract Elliptic Equations – V. A. Rastrenin	1411	2014
Stability of Solutions of an Infinite System of Differential Equations – V. E. Slyusarchuk	1414	2019
Systems of Elements of a Space over a Space, and the Realization of a Given Motion Trajectory – A. T. Taldykin	1420	2027
Asymptotic Equivalence of Linear Differential Systems with Delay – V. A. Tyshkevich	1428	2039
Conformal Mapping of a Half-Plane on a Curvilinear Pentagon with a Cut – A. R. Tsitskishvili	1432	2044
PARTIAL DIFFERENTIAL EQUATIONS		
A Cauchy Characteristic Problem for a Quasilinear Analytic System – S. P. Bautin	1438	2052
Question of Whether the Classical Solution of Dirichlet's Problem for an Elliptic Equation in an Arbitrary Region (Bounded or Unbounded) Is in W_2^1 – V. M. Govorov	1445	2064
Solution of a Problem Concerning the Excitation of Two Circular Cylinders by an Arbitrarily Oriented Electric Dipole – E. A. Ivanov and A. I. Glushtsov	1448	2068
Periodic Solutions of Certain Nonlinear Partial Differential Equations – A. M. Filimonov	1454	2076
Divergent Representation of Bilinear Forms of a Class of Differential Operators – G. L. Chernyshov	1460	2085
BRIEF COMMUNICATIONS		
Self-adjoint Property of Second-Order Elliptic Operators – K. Kh. Boimatov	1464	2089
A Criterion for the Asymptotic Stability of Differential Systems with g-Perturbations – N. E. Bol'shakov	1466	2092
A Generalization of the Brockett – Lee Theorem – N. V. Ioffe and G. A. Leonov	1468	2095
Smoothness of Solutions of Certain Parabolic Equations. III – V. A. Kostin	1470	2097
Orientation of an Inertial Solid Body – A. M. Meilakhs	1473	2101
Integral Curves of a Class of Differential Equations Having Centers – L. A. Cherkas and G. M. Buldyk	1474	2102

Volume 12, Number 12 December, 1976

	Engl.	Russ.
ORDINARY DIFFERENTIAL EQUATIONS		
Characteristic Vectors and Sets of Functions of Two Variables and Their Basic Properties – É. I. Grudo	1477	2115
Sufficient Conditions for the Existence of a Strong Minimum in the Case of Degenerate Optimal-Control Problems – V. I. Gurman and V. A. Dykhta	1486	2129
Some Boundary-Value Problems for a System of Ordinary Differential Equations – I. T. Kiguradze and B. Puzha	1493	2139
Minimax Filtration with Quadratic Restrictions. III – A. B. Kurzhanskii and I. Ya. Pishchulina	1501	2149
Topological Invariants of Complex Linear Flows – N. N. Ladis	1507	2159
A Generalization of the Hypergeometric Equation – A. D. Lizarev and V. I. Klenov	1514	2170
Existence of Values for a Class of Differential Games Described by the Wave Equation – E. A. Markin	1518	2175
A Formula for the Entropy of Smooth Dynamic Systems – V. M. Millionshchikov	1527	2188
Local Dynamic Equivalence of Differential Equations – G. S. Osipenko	1530	2193
Dependence of Parameters of a Dynamic System on the Coefficients of the Pointwise Transformation – N. F. Otrokov and Yu. D. Tyan	1536	2201
Local Controllability – N. N. Petrov	1545	2214
PARTIAL DIFFERENTIAL EQUATIONS		
Solvability of the First Fundamental Mixed Problem in the Dynamics of a Three-Dimensional Elastic Body – M. Ismatov	1551	2223
A Method of Approximating Regularized Solutions of Nonlinear Equations of the First Kind with Inaccurate Operators – O. A. Liskovets	1558	2233

	Engl.	Russ.
Cauchy's Problem for Second-Order Hyperbolic Differential-Operational Equations — F. E. Lomovtsev and N. I. Yurchuk	1564	2242
Integral Representations of and Boundary-Value Problems for Certain Elliptic Equations with Singular Hyperplanes — N. Radzhabov	1570	2251
BRIEF COMMUNICATIONS		
A Uniqueness Theorem for the Solution of an Inverse Problem for a Quasilinear Hyperbolic Equation — Yu. E. Anikonov	1581	2265
Controllability of Systems with Time-Lag by Means of the Initial Functions — L. E. Zabello and T. B. Kopeikina	1582	2267
Some Necessary and Some Sufficient Conditions for Polynomials to be Hurwitz — A. V. Lipatov	1584	2269
A Bilateral Runge—Kutta Method for the Numerical Solution of Cauchy's Problem for Ordinary Differential Equations — N. Ya. Lyashchenko and I. F. Gez'	1586	2271
Problem of Distinguishing a Center and a Focus for a System of Nonlinear Vibrations — A. P. Sadovskii	1587	2273
Optimization of Singular Controls in Systems with Time-Lag — V. A. Srochko	1589	2275
Estimation of the Exponential Growth of Solutions of Certain Linear Partial Differential Equations with Leading Terms — Hassan Atiya Hussein	1592	2279
Absence of Cycles for Equations $y' = Q_2(x, y)/P_2(x, y)$ Having Foci of the Third Degree of Coarseness — L. A. Cherkas	1594	2281
A Stefan Problem with One of the Phases Disappearing — G. I. Shishkin	1596	2283
Appearance of an Interior Boundary Layer in Singularly Perturbed Conditionally Stable Systems — A. N. Yarkin	1597	2285
